

Technical Proficiency Assessment

Overview

This assessment evaluates your technical expertise across five key domains: Networking, Security, Software, Operating Systems, and Hardware. For each area, you'll rate both your theoretical knowledge and practical experience, helping us understand your technical proficiency comprehensively.

Assessment Structure

For each topic within the five domains, you will:

- Rate your overall knowledge on a scale of 1-5
- Evaluate your theoretical understanding on a scale of 1-5
- Indicate whether you have practical experience (Yes/No)

The domains covered include general concepts, specific technologies, and hands-on capabilities in each field.

Privacy Information

Important information about your data:

- Your email address will be collected for assessment tracking
- Your responses will be used for research purposes only
- All data will be stored securely and handled confidentially
- You can request deletion of your data at any time

Duration

The assessment takes approximately 10-15 minutes to complete. You'll be evaluating your knowledge across multiple technical domains, so please take your time to provide accurate responses. While you can take breaks if needed, it's recommended to complete each domain in one sitting.

☐ I have read and understood the information above

☐ I consent to participate in this assessment and allow my responses to be used for research purposes

Technical Proficiency Assessment

Please complete this technical assessment to help us understand your knowledge and experience across different technical domains. For each topic, you'll provide two ratings from 1-5 and answer one yes/no question. Your honest responses will help us tailor the content to your expertise level.

Networking

Assessment of networking knowledge and capabilities

Networking - General

How would you rate your general knowledge about computer networks? *

☐☐☐☐☐

How comfortable are you diagnosing network connectivity issues? *

☐☐☐☐☐

Have you independently solved network problems? *

☐☐

Networking - Configuration

How would you rate your knowledge about network configuration? *

☐☐☐☐☐

How well do you understand DHCP and DNS services? *

☐☐☐☐☐

Have you configured static IP addresses on devices? *

☐☐

Networking - Protocols

How would you rate your knowledge about network protocols? *

☐☐☐☐☐

How familiar are you with secure and insecure protocol usage? *

☐☐☐☐☐

Have you used or configured standard network protocols beyond basic web browsing? *

☐☐

Networking - Security

How would you rate your knowledge about network security? *

☐☐☐☐☐

How well do you understand common network security measures (firewalls, encryption)? *

☐☐☐☐☐

Have you configured security settings on a network device? *

☐☐

Networking - Cloud

How would you rate your knowledge about cloud services? *

1

2

3

4

5

How well do you understand basic cloud concepts (IaaS, PaaS, SaaS)? *

1

2

3

4

5

Have you used any cloud services beyond basic storage? *

Yes

No

Security

Assessment of security knowledge and practices

Security - General

How would you rate your general knowledge about cybersecurity? *

1

2

3

4

5

How confident are you recognizing general cybersecurity risks? *

1

2

3

4

5

Have you troubleshoot and resolved security-related issues? *

Yes

No

Security - Authentication

How confident are you with managing authentication methods? *

1

2

3

4

5

How well do you understand different authentication factors? *

1

2

3

4

5

Have you set up two-factor authentication on your accounts? *

Yes

No

Security - Data Leakage

How would you rate your knowledge about data protection? *

1

2

3

4

5

How well do you understand data leakage prevention methods? *

1

2

3

4

5

Have you used encryption tools to protect sensitive data? *

Yes

No

Security - Privacy

How would you rate your knowledge about digital privacy? *

1

2

3

4

5

How well do you understand privacy settings and their implications? *

☐☐☐☐☐

Have you configured privacy settings on multiple platforms? *

☐ Yes☐ No

Security - Malware

How confident are you identifying potential malware threats? *

☐☐☐☐☐

How well do you understand different types of malware? *

☐☐☐☐☐

Can you diagnose and address malware infections? *

☐ Yes☐ No

Security - Encryption

How would you rate your knowledge about encryption? *

☐☐☐☐☐

How well do you understand encryption concepts? *

☐☐☐☐☐

Have you used encryption tools for securing data (beyond HTTPS websites)? *

☐ Yes☐ No

Software

Assessment of software knowledge and capabilities

Software - General

How would you rate your general software knowledge? *

1

2

3

4

5

How confident are you managing and troubleshooting applications? *

1

2

3

4

5

Have you troubleshooted software conflicts? *

Yes

No

Software - App Management

How would you rate your knowledge about managing applications? *

1

2

3

4

5

How well do you understand software licensing and updates? *

1

2

3

4

5

Have you managed software across multiple devices? *

Yes

No

Software - Programming

How would you rate your programming knowledge? *

1

2

3

4

5

How well do you understand programming concepts? *

1

2

3

4

5

Have you written a script or program? *

Yes

No

Software - Web Browsers

How confident are you troubleshooting browser-related issues? *

1

2

3

4

5

How well do you understand browser components and settings? *

1

2

3

4

5

Have you managed browser settings and extensions? *

Yes

No

Operating Systems

Assessment of operating system knowledge and capabilities

OS - General

How well can you navigate and configure system settings? *

How well do you understand OS components and functions? *

Have you independently performed OS troubleshooting? *

OS - Drivers

How would you rate your knowledge about device drivers? *

How well do you understand driver compatibility? *

Have you manually installed or updated drivers? *

OS - File Management

How would you rate your knowledge about file systems? *

How well do you understand file permissions and file system structures? *

Have you recovered deleted files? *

Yes

No

OS - Settings and Configurations

Can you confidently adjust system settings? *

1

2

3

4

5

How would you rate your knowledge of system configurations? *

1

2

3

4

5

Have you independently modified OS settings to address issues? *

Yes

No

Hardware

Assessment of hardware knowledge and capabilities

Hardware - General

How comfortable are you troubleshooting general hardware issues? *

1

2

3

4

5

Do you understand how hardware issues can affect computer performance? *

1

2

3

4

5

Have you resolved hardware problems independently? *

Hardware - Peripherals

Are you familiar with troubleshooting peripherals like keyboards or mice? *

Can you diagnose common peripheral device issues? *

Have you resolved peripheral connectivity problems? *

Hardware - RAM and Memory

How well do you understand general memory usage and related problems? *

Are you comfortable identifying RAM-related performance issues? *

Have you monitored and managed RAM usage on your computer? *

Hardware - Storage

How confident are you in managing storage drives and related issues? *

☐☐☐☐☐

Have you performed routine checks on storage devices? *

☐☐☐☐☐

Have you diagnosed and resolved hard drive health issues or disk errors? *

☐☐
